Figures in this document are based on spending by visitors during 2022, including domestic out-of-state visitors, international visitors, and Florida residents who traveled at least 50 miles to the destination. They also include both day and overnight trips. Indirect impacts are impacts on non-tourism businesses which provide supplies to tourism businesses (e.g. restaurant suppliers). Induced impacts are impacts on non-tourism businesses due to spending of wages by employees of tourism businesses (e.g. the money spent by a tourism business employee at a grocery store). "Total Business Spending" is the amount paid to suppliers by businesses.
